

Immunization Record Instructions
Taylor Health and Wellness Center
Missouri State University
901 South National Avenue
Springfield, MO 65897
(417) 836-4000 (phone) (417) 836-4075 (fax)

Your immunization record has not been received here yet. It is important for your care at Taylor Health and Wellness Center for us to have an accurate and current record of your immunizations.

Please take time now to obtain this important vaccination history, so we may better assist you in your medical care. This data may be found in a variety of locations;

- Perhaps you, or a family member, has this on file, in a vaccination booklet/travel packet/ or other record.
- Your Pediatrician, Family Medicine specialist, or other primary care facility may have a vaccination history in their records.
- Sometimes, you can get a copy from your high school or military records.

For your convenience, we have links on our website which may help you gather this information. Please go to <http://health.missouristate.edu/history> and download the medical record release form you can complete and send to your previous physician/clinic/or school (for us to receive a copy of your previous medical records).

Also, this link has a copy of the immunization record form if you would like to see the vaccination information we are seeking.

If you need assistance, please feel free to call or visit our medical records specialists at the front desk of Taylor Health and Wellness Center.

When done, you should have an immunization record here which will allow us to give you the best informed advice. Also, you should keep a copy of your immunization record in your personal files as well.

Thank you for partnering with us to facilitate excellent medical care for you and to help promote your lifelong wellness.
